

RING SIZE GUIDE

If you aren't already aware of your ring size or don't have the measurements - this handy sizing chart guide will help you determine the perfect size for your hand.

HOW IT WORKS

1. Print this document at 100% actual size with no scaling for an accurate reading.
2. Measure the below line to test the accuracy of the print - it should be exactly 60mm long (6cm).

3. Select an existing ring that fits the intended finger perfectly (make sure it fits firmly but is easily removed and that your hands are warm - your ring should fit your finger comfortably; snug enough so that it will not fall off, but loose enough to slide over your knuckle).
4. Place the ring over the circles below and match the inside edge of the ring to the circle nearest in size (all below measurements refer to the inside diameter of the ring and are represented in mm).
5. If the ring falls between two sizes, order the larger size.
